I conceive that it is the duty of with the epidemie of plague. It is unnecessary at the next meeting of Council I will ask the such steps ha they flux to be necessary, upon arisen, and I regret to say that it has already enting their leaves, commencing on the the Government, at dimost any cost, to take for me to explain how this expenditure has satisfactory evidence, or what is desmed ne- exceeded the \$100,000. The Treasurer told me loaves, and when these are consumed going on have had up to the present of the terrible account of \$107,735.05. In view of that fact do entirely decuded of leaves, they are practically plague that has vicited the colony. But I you not think it would be better to take a vote dead, as leaves are the principal organs where think it is not only a person you that account -a recurrence, which it's occurs would mean a mondations of the Finance Committee. It is not greater less to the way in the lives of the a matter of much importance—it simply means people and in its finances. Now the Government have doubtless got the best evidence they could, and if the brance of the evidence now in the possession of the Government points as I think it does very acongly-to the destruction Protection Ordinance, 1890," and Ordinance think it does very acongly—to the destruction No. 14 of 1891, entitled "An Ordinance to of while area, then the whole area must be destroyed. I think what the Government have to do is not to take notice of, or to regard lightly, opinions or sentiments expressed by those who look at the matter through the spectacles pillar plague. of interest, because personal interest and inindirectly. The Government have to go apon

the best evidence they on get, and if the balance of the evidence-and it was the best evidence they could get-shows that Taipingshan ought to be destroyed it will have to be detroyed. think the measure is argent because whatever which I propose to shortly call the Taipingshan is done ought to be commenced as soon-as Resumption Ordinance. On ordinary occasions it possible so that when the period arrives when consciontiously that we have, at any rate, commanced to do what we thought was necessary. There was also, Lought to add, before the Governthe recollection of hon, members of Council that ment very strong evidence of what was necessary on the lith June this year your Excellency at a to be done in this area from the Japanese experts meeting of this Council stated shortly what were sad from M. Yersin, the Pronch medical man. This the steps that were proposed to be taken by the Bill is only the precursor of another measure, broadly with the sanitary condition of these houses and the great question of overcrowding. Daily Press, and I think it is fairly correct)-"It Might I say before resuming my sent that there is will give the Government-this is of course one point-it is only a small point-which I should like to mention. Is Committee on a Bill an amendment is frequently proposed -often it is not sion of, and pull down, and destroy, all dwelling formulated in writing, and at the moment an houses and blooks of houses unfit for human ha. amendment to a particular section is accepted bitation. It will provide that the Government without suspecting that it has reference to shall at once resume the possession of all land on another part of the Bill. It may often happen

which such dwellings are built, prying of course that such an amendment is accepted and it is componsation for so doing. It will provide afterwards found that it materially aff-ots some that the Government shall have power to enter other section of the Bill, not thought of at the all houses now invaniery though capable of moment. There is no rule that I am sware of prescribing that any amendment should be made tion. - Owners will be compelled to smend all in writing, or notice given of it, but I should like to appeal to hos members that it they have any sanitary. The Government will have power to amerdments, material amendments, to make, re-survey and re-arrange all lots so taken, and while the Bill is in Committee after the second open new roads and improve the old ones. reading, will they, so far as they can, give one or

The ACTING COLONIAL SECRETARY-Hon. C. P. CHATER-Sir, I believe I am right in saying that this is probably the first time in the history of the colony that a Bill of this nalenoy. However, when the first print of the ture has been brought before this Council, au-Bill came to be considered, it was found that thorising the Government to resume from the the sanitary provisions contained in it then Crown leases so large an area of land and and the further sucitary additions to be in entailing so heavy an expense. The reasons troduced would so complicate the Bill that it was for this resumption are well known to every thought better to put them in a separate measure, body. They have been discussed both private and they were dropped out of this Bill altogether. If and in the press, and they are familiar to all general powers of demolition and resumption fore it is unnecessary for me to dilate on them. after a proper arbitration board had been oon. I may, however, mention that the concensus of However, hefore the Bill was finally opinion is in favour of the Bill as it is now preframed the Permanent Committee of the Sant. sented to us. (Hear, hear). Nevertheless, I should tary Board somewhat modified the view they put like to take this opportunity of saying a few Hon. E. Bowdern, Acting Director of Public forward as to what was required, and you will words with regard to the action of the unofficial find in a letter already printed in the daily members in this matter. When the Bill was newspapers that on the 28th June the Perman originally drafted your Excellency was pleased

instead of the general powers of resumption the and for any remarks we might like to offer on resumption of a cartain area of Taiping show ju- it. After leaving the Bill for some time in the stead of what was formerly proposed; hence this hands of my colleagues in order to enable them to fully consider it, I called a meeting for the purpose of discussing its provisions. It was then found necessary to call a second meeting an I the final outcome of our deliberations was certain auggestions which we were to submit to your Excellaucy for your approval. Before we had an The Actine Colonial Securitary-I have it will have to be looked upon as a first measure, opportunity of doing this we received a comto be followed by a second measure which will munication from the Hon. Acting Colonial Secretary informing us that your Exc llancy We have received from Mr. F. E. Albert, the ferred to the Finance Committee, which will cond point is as to the necessity for this Bill. I desired to meet us to discuss not only the sugchief object of this Bill is so far as possible, so far principle of the Bill, namely, the resumption of as we can foresee, to prevent any reorudescence or Taiping than, and for this propose copies of cormuy recurrence of that plague which has now visited respondence on the matter were enclosed for the colony for apwards of four menths. The our guidance. At an informal meeting held in area proposed to be dealt with, roughly speak. this Chamber our suggestions were submitted ing comprises somewhat under 400 000 square and, for the most part, adopted—including feet, or 10 acres, and from the letter of the Per. the very important recommendation for the manent Committee of 28th June it will be seen deletion of the latter part of clause 7 which that the area comprises 334 houses, of which 76 bound the Government to resume and destroy had more than three cases of plague in them, and lands and buildings and take up sewers, destroy floieut, but that the time is now come when it is dent of the Betanical and Afforestation Depart were closed on that account, 146 had one or two streets, and carry away, the soil and subsoil our duty to claim from our Legislature the full ment; Postmiater General's Report for 1393, cases of plague, and the remainder were con. which had become infected on the area that houses or were instaltary in themselves from question, the resumption of Tulpingshau, we have other causes. Now, many of these houses are had no time to hold a meeting among ourselves small, old, dark, badly drained and ventilated and and therefore each one can give his independent will kindly return the enclosed when signed." the hon, member who recently represented the some of them were then in most filthy opinion. Mine was as it has always, been that etc. The Manifesto is as follows - We Chamber of Commerce in this Council asked condition, and the majority of them were at any expense a recurrence of the plague should The whole district is said to be badly laid out the measures proposed to be supplied would The Acting Committed Spongram - I have said badly drained, and the soil is footid with enture that result. From all the evidence is impossible to re-enact the Contagious Dis. the honour to move the adoption of certain by- the accommissions of years. Up to 28th June advanced it was very clear that there were other eases' (Women's) Acts in the British Islands: laws which have been made by the Sanitary out of all the cases of planus which had occurred localities outside that which was proposed to be and also the opinion expressed in the Report Board with regard to the housing of sheep and 50 per cent opening district. destroyed as badly affected and I pointed out to your request of the Srd instant, to forward the now from medical authority that the plague was prepared to resume these other districts and carried off from 75 to 80 per cent, of those at- improve their sanitary condition by giving them Hon. A. McContonis saked the following tacked by it. From four to fifteen ourts have been offered for caterpillars, athough the latter price failed to attract collectors when the

substances into organic matter, for the food and building up of the plant. There are very few trees, however, which have lost all their leaves, and these few are located in various parts of the Island. There are some around Aberdeen, at Deep Water Buy, at Causeway Bay and North Point at Sharkiwan and near Chaiwan, Many tress have been stripped of their old leaves and are consequently in a rather sickly condition, am of opinion, however, that they will recover in time, as most of them have sufficient young leaves to onable them to make new growth in fact, a good number of them are already starting to

PREVIOUS VISITATIONS. 11.-If the Chinese are to be believed this caterpillar has been known on the mainland for powers. A few leaves were caten yearly, but no practical damage done. It was not observed in his Colony until the end of the summer of 1892. Little damage was then done to the trees, which may be explained by the fact that the number of insects was comparatively small, only two or three being seen on each todividual tree. The

localities which they appeared in were Doop Water Bay and Kowloon. 12 The second appearance was last year at New Year Mail, Onlyard 530 677 Quarry Bay and Kowloon, towards the end of Christmas Mail Ontwinden 508 The CHAIRMAN-It means that a sum of July. Their numbers had very much increased Bay upwards of 30,500 trees were killed; as the Chinese from various reasons could not be induced to collect the peat. One of the chief objections to take part in the work was the pain caused by the hairs of the esterpillars stinging their hands and foot, as well as other parts of their bodies. Another objection was the great difficulty in finding the laseon after they had fallen amongst the long grass underneath the trees. Great numbers were collected by our own staff but owing to the unbealthiness of the district the men had to be taken sway and as it was two of the men died from fever contracted

whilst at work in that heighbourhood. PROBABLE CAUSE OF PLASUE 18-The sense of the very great increase in sum of \$1.143.23 paid to Germany on account of Mr. Arthur Chapman, Assessor, in his caport the number of the inserte this year on anything francit lines for 1831, and if this he deducted previously known is in my opinion as follows. then the expenditure for 1893 exceeds that for The winter of 1892.03 was exceptionally severe, 1892.by 83.181.39, an excess which is to be atand it is quite probable that the natural foe of tributed to the low rate of exchange prevailing By order of His Excellency the Governor in the caterpillar succumbed to the extraordinarily during the year. water su ply and trinske it og apulsery that the

per levels of the city to the harbour. By this counsellous to be mide with the new sewors. plan and the avoidament all attempts at group. It is no part of this leview to compliment those The Honourable J. H. Stewart Lockbart, Asting ing the lown-into districts, a Lirge Jamber of who have our led out the grout public work outlets late the barbour was required falty four now referred to but, if we almit the principle in alf). This incthot but the merit of discharge juvalved it is safe to my that nothing has been ing the ell mately front of its own collecting area left undene, that selected and skill could accomplish, in the designing and execution of these worke, saving as his been pointed out so for as the ultimate disposit of the sewage is defective. To remedy this pulpable leleptic the paramount duty of the Government, it is still possible, at no very serious expense, to carry the town sewage out to sea, where no logary, will be done to any living thing. Whon we refur to expense in this connection is must be compared not with the oost of works a rushy done, but with the injury

igion when epidemics in their toysterions cycles visit out shores. The other branch of the conservancy question is the removal of "robbish" not soluble, viz. SCAVENGING. Under this boiding way he included the removal of the lune at present conducted by house to: house visitation; for which the com-

munity pays about \$4,000 a year while the revenne of the colony is incremend by 822,000 a year from the hight soil contract. It would be highly desirable to is able to introduce waterclosets into the European quarters and perhaps of piping for fouling, with botter flow of some of the butter class native questors. estimated quantily of the forces removed is 35 tons per day, and so long as the destination of the sewage is in the harbone the are of waterclosets cannot by jobrated and, antil the water enpply is increased it is not practicable. In Braksview of the domestic habits of the general mass of the Chinese population, water carrings is not called for and would not be appreciated if

> It in y moreover, be questioned how for it would be just to sea the general revenue of the colony for the spicial banefit of a class, even of The property of the Colony is now oward by
